### **Services Installation And Equipment Use**

1. You receive access to the Internet via a switched 100 Meg Ethernet Local Area Network (LAN) connected to the Internet via one or more T1 lines and/or a DS3. Please keep in mind; the Internet is a public domain. showNets has no control over nor is it responsible for the external network performance once the network traffic leaves the showNets network and is received by the ISP's POP router and beyond.
2. showNets will provide a single Cat-5 Ethernet cable, with a male RJ45 connector, to your booth or pedestal. This cable will connect to the Ethernet adapter that should be installed in your machine. With this cable will be a TCP/IP address. A printed copy of the full TCP/IP address information will be provided to you at the start of the event to facilitate your configuration of the demonstration machine. The address information will also be available in advance of the event on the showNets web site ([www.shownets.net/events](http://www.shownets.net/events)).
3. To connect additional computers to the network you will need to order additional TCP/IP addresses. Please see the Order Form. You need to bring or rent an Ethernet Hub and patch cables for connecting these additional machines. Each machine will require an Ethernet adapter and TCP/IP stack.
4. **Cancellation Policy: showNets must be notified in writing two (2) weeks prior to show date to cancel Internet Access Order. Orders placed within 2 weeks of the show are non-refundable.**

**REMEMBER, ONE (1) PUBLIC OR PRIVATE TCP/IP ADDRESS MUST BE ORDERED FOR EACH MACHINE TO BE CONNECTED TO THE INTERNET. IF YOU REQUIRE ANY OF THESE SERVICES, WE WILL ACCOMMODATE YOUR REQUEST WITH A WRITTEN QUOTATION. NO WIRELESS DEVICES ARE ALLOWED ON THE NETWORK WITHOUT SUPPLIERS PRIOR WRITTEN CONSENT. IF YOU REQUIRE YOUR OWN WIRELESS NETWORK WITHIN YOUR LOCATION, WE WILL ACCOMMODATE YOUR REQUEST WITH A WRITTEN QUOTATION.**
